## On the New Year.

**T**HE *Old Year* is ended, and what shall we do ?  
Discreetly consider to go thro' the *New*.  
While Compliments pass still from one to the other,  
From Father to Son, and from Sister to Brother,  
Let the Muse, without personal Satire or Gall,  
Declare what she wishes, and wishes to all :  
May Folly and Vice be quite banish'd our Nation,  
And Virtue and Truth have free Toleration ;  
May *false Friends*, those Vultures, those raisers of Strife,  
Atone for their Crimes by—Amendment of Life ;  
May our Statesmen agree, and our Placemen be true,  
And then the *Old Year* will be worse than the *New*.

## ECLIPSES for the Year 1785.

**T**HERE will be but two ECLIPSES this Year, both of the SUN, and both invisible to us.

I. The first will be on Wednesday the ninth day of February ; the conjunction will be at 41 min. after 7 in the morning in the 21st degree of *Aquarius*. The Moon's lat. 28 seconds north. The Sun will be totally and centrally eclipsed on the meridian at 43 minutes after 7 o'clock in lat. 13. 57. S. and long. 64. 13. E.

II. The second will be on Thursday the fourth day of August ; the conjunction will be at 47 minutes after 8 in the afternoon in the 13th degree of the celestial *Lion*. Moon's lat. 4 and an half min. south. The Sun will be centrally eclipsed on the meridian at 50 minutes after 8 o'clock, in lat. 12. 1. N. and long. 132. 33. W.

*Mr. William Baker, senior, of Boston, Messenger to the Senate, and House of Representatives.*

Every town having 150 rateable polls, has a constitutional right to elect and depute one *Representative*; and a town containing 375 may elect two, and if 600, they may elect three; and so on, making 225 rateable polls the mean increasing number for every additional Representative.—They are to be chosen annually in May, ten days at least before the last wednesday of that month, and each of them to have been one year an inhabitant of, and seized in his own right of a freehold of the value of £. 100 within the town he shall be chosen to represent, or any rateable estate to the value of £. 200.—Not less than 60 members are to constitute a quorum. (16 make a quorum in the *Senate*)—No member can be arrested on mean process during his going unto or returning from, or attending the General Court.—They have power to impose fines upon such towns as shall neglect to return members.—All money bills are to originate in the House of Representatives, though the Senate may propose or concur with amendments.—They have power to adjourn themselves, but not to exceed more than two days at a time.—

*A general Description of America.*

**T**HIS great western continent, frequently denominated the new world, extends from the 80th degree north, to the 56th degree of south latitude, and where its breadth is known, from the 35th to the 136th degree of west longitude, from London, stretching between 8 and 9000 miles in length, and in its greatest breadth 3690. It sees both hemispheres, has two summers and a double winter, and enjoys all the variety of climates which the earth affords. It is washed by the two great oceans. To the eastward it has the Atlantic, which divides it from Europe and Africa. To the west it has the Pacific, or great south sea, by which it is separated from Asia. By these seas, it may, and does, carry on a direct commerce with the other three parts of the world. It is composed of two great continents, one on the north, the other upon the south, which are joined by the kingdom of Mexico, which forms a sort of isthmus 1500 miles long, and in one part of Darien, so extremely narrow, as to make the communication between the two oceans by no means difficult, being only 60 miles over. In the great gulch, which is formed between the isthmus and the northern and southern continents, lie an infinite multitude of islands, many of them large, most of them fertile, and denominated the west Indies, in contradistinction to the countries and islands of Asia, beyond the Cape of Good Hope, which are called the east Indies.

Rev. John Sergeant, Preacher to the Indians at Stockbridge.	

The anniversary Convention of the Congregational Ministers is held at Boston the Thursday following the last wednesday in May ; on which day a Sermon is publicly preached before them, and a collection made for the relief and support of such of their society or families as may stand in need thereof. — The Rev. Mr. Phillips Payson, of Chelsea, is chosen to preach the Sermon at the next Convention ; but in case of Sickness, or otherwise, that he cannot attend, the Rev. Mr. Moses Hemmenway of Wells is to officiate in his stead.

The Rev. Mr. John Lathrop, of Boston, is Scribe to the Convention of Ministers.

By the Laws of this Commonwealth, the inhabitants of each town within the same are to take due care from time to time to be constantly provided with an able, learned, orthodox minister or ministers, of good conversation, to dispense the word of God to them, who are to be suitably encouraged, and sufficiently supported and maintained by the said inhabitants. —

*( By the many vacant parishes which for a number of years have been seen continued in this Register, it appears that these Laws have not been strictly complied with. )*

By the same authority, every town having 50 householders or upwards, is to be constantly provided with a School-master, to teach children and youth to read and write ; and where any town has the number of 100 families or householders, there is also to be a grammar school set up therein, and some discreet person, well instructed in the tongues, procured to keep the same, and be suitably encouraged and paid by the inhabitants. —

The neglect of having Ministers and School-masters, or not making suitable provision for them, is to be remedied by complaint to the quarter sessions of the peace for the county wherein any delinquent town lies.

The President, Fellows, Professors, Tutors, Librarian and Students of Harvard College (now University) likewise settled Ministers of the Gospel, & Grammar School Masters, are not to be assessed for their polls or estates, unless their real estate be under the improvement of some other person, or not in the parish where they are settled.

A Committee of Congress, on June 3d 1784, Reported  
 "That the district of territory lying on the west side of  
 Connecticut river, called *Vermont*, within the limits and  
 boundaries described in the act of Congress of the 20th  
 of August 1781, and the people inhabiting the same, be,  
 and they thereby are recognized and declared to be a free,  
 sovereign and independent State, by the name of the  
 State of *Vermont*. That the said State of *Vermont*, being  
 within the limits of the United States, shall be considered  
 as part of the confederacy, on the same principles as the  
 new States, who shall have established permanent govern-  
 ments agreeably to the act of Congress of the 23d day  
 of April last, until it shall accede to the articles of con-  
 federation, and be admitted into the federal union of  
 the States", &c. —

The State of *Vermont* elected the following Officers.  
 Tho. Chittenden, Esq; Gov. | Ira Allen, Esq; Treasurer.  
 Paul Spooner, Esq; Lt. Gov. | Micah Townsend, Esq; Secr.

THE following are the names and boundaries of ten  
 other intended new States, to be erected out of the terri-  
 tory on the western frontiers, ceded or to be ceded by  
 individual States to the United States; they are to be  
 bounded northwardly and southwardly by parallels of  
 latitude, so that each State shall comprehend two degrees  
 of latitude, beginning to count from the completion of  
 31 degrees north of the equator: Eastwardly and west-  
 wardly they are to be bounded, those on the Mississippi  
 by that river on one side, and the meridian of the lowest  
 point of the rapids of Ohio on the other; and those ad-  
 joining on the east, by the same meridian on the western  
 side; and on their eastern, by the meridian of the western  
 cape of the mouth of the Great Kanbaway. The ter-  
 ritory eastward of this last meridian, between the Ohio,  
 Lake Erie, and Pennsylvania, is to be one State.

The territory northward of the completion of the 45th  
 degree from the equator, and extending to the lake of the  
 woods, to be called *Sylvania*.

The territory under the 43d and 42d degrees, to the  
 westward, through which the Assenisipi, or Rock River,  
 runs, to be called *Assenisipia*; that to the eastward, in  
 which are the fountains of Muskingum, the two Miamis  
 of Ohio, the Wabash, the Illinois, the Miami of the  
 Lake, and Sandusky rivers, to be called *Metropotamia*.

The territory which lies under the 41st and 40th degrees, the western, through which the river Illinois runs, to be called *Illinoia*; the next adjoining to the eastward, to be called *Saratoga*; and that between this east and Pennsylvania, extending from the Ohio, to the Lake Erie, to be called *Washington*.

The territory which lies under the 39th and 38th degrees, to which shall be added so much of the point of land within the fork of the Ohio and Mississippi as lies under the 37th degree, that to the westward, within and adjacent to which are the confluences of the rivers Wabash, Shawanee, Tanissee, Ohio, Illinois, Mississippi and Missouri, to be called *Polypotamia*; and that to the eastward, farther up the Ohio, otherwise called the Pelisipi, to be called *Pelisipia*.

The government of these States are to be upon the following principles: That they forever remain a part of the United States of America—That in their persons, property and territory, they shall be subject to the government of the United States in Congress assembled, and to the articles of confederation—That they shall be subject to pay a part of the federal debts contracted, or to be contracted—That their respective governments shall be in republican forms, and to admit no person to be a citizen who holds any hereditary title—And after the year 1800 there shall be neither slavery nor involuntary servitude.

CONGRESS, on the afore said 3d of June 1784, Resolved that a body of troops of 700 men, properly officered, be raised and kept in pay as a peace establishment for the protection of the western and north western frontiers, and guarding the public stores, and to be raised in their proportion upon the following States, viz.

New York,	165	Pennsylvania,	260

They are to be formed into one regiment, consisting of 8 companies of infantry and 2 of artillery, to be armed and equipped in a soldier like manner, and their pay, subsistence and rations, to be the same as has been heretofore allowed the troops of the United States. *Officers of the Marine Society in Boston.*

Capt. Hector M'Neil, *Master*,  
 Capt. Job Prince, jun. *Deputy Master*,  
 Capt. Job Prince, sen. *Treasurer*,  
 Capt. Edward Knox, *Clerk*.

[A *Marine Society* is also incorporated at Salem, and another at Newbury Port; they consist of Masters of vessels, the principal ends of which are to improve in the knowledge of this coast by their several meetings, upon their arrival from sea; communicating their observations towards and outwards of the variation of the needle, the soundings, courses and distances, and all other remarkable things; also to relieve one another and their families in poverty or other adverse accidents of life, which they are more particularly liable to.]

*Directions for sailing in and out of Boston Bay, from Cape Cod or Cape Ann to Boston Light-House.*

THE Light stands on a small Island, at the north entrance of the channel (Point Alderton and Nantasket lights being on the south) is near 70 feet high; to see for it from Cape Cod, the course is W. N. W. when within about a league of the Cape. — From Cape Cod to the Light-House is about 16 leagues. — From Cape Ann to the Light-House the course is S. W. distance about 10 leagues. After making the Light, and the wind fair, you may bring it to bear W. by N. or W. N. W. and then run for it, till you come within about two cables length. If the weather is bad, so that a Pilot can't come off, after running a breast of the Light House, so to bring it to bear N. by E. you may run W. by S. about a mile and an half, to Nantasket road, where there is good anchorage from 7 to 5 fathoms of water. — On coming in, and the wind a-head, you may stand to the southward till the Light is brought to bear W. N. W. and to the northward till it bears W. S. W. till within one league of the Light, then you must not stand to the northward further than to bring it to bear W. by N. and to the southward to bring it to bear W. N. W. —

There is good anchorage, and good fishing in the Bay.

BY a Law of this Commonwealth, pass'd in July 1783, the Governor with advice of Council, are empowered and requested to appoint suitable Persons as Pilots for the several Harbours of *Boston, Salem, Marblehead, Gloucester, Newbury-port, Plymouth, Nantucket, Vineyard*, and other Places as may become necessary; each Pilot to have a Branch or Warrant, and to be under oath and to enter into bonds of £. 1000 for the due performance of the trust reposed in him.

The following are the Names of those who are appointed to that trust.

*For the Harbour of Boston.*

Thomas Knox, who is also keeper of the Light House.

Robert Knox, and Adam Knox, jun.

By the Laws of this Commonwealth, the master or owner of any vessel belonging to this or either of the United States, (not employed in the coasting and fishing business) is to pay into the hands of the Naval Officer, previous to his clearing out, a duty of 2d. per ton; and by the master of every vessel *not* belonging to this, or either of the United States, a duty of 4d. per ton, for the support, &c. of the Light-Houses on the sea coast. — Coasting or fishing vessels of 30 tons or upwards, are to pay at the rate of 4d. per ton per annum. —

All the monies arising from these duties are to be appropriated to the building, supporting and maintaining the Light Houses on the sea coast of this Commonwealth. The keepers of which are carefully and diligently to attend their duty in keeping the Lights burning from sun setting to sun rising. — The Law provides for recovering the duties, in case of refusal; also for fining the keepers of the Lights in case of neglecting their duty.

A Light House is likewise on the Gurnet Head, near Plymouth, with two lanthorn's placed N.N.W. half W. and S.S.E. half E. at 11 feet 6 inches distance, and cannot be brought into one when you are to the northward.

There are also two Lights on Thatcher's Island, off Cape Ann, and bear of each other, where in one, S.S.W. a quarter S. and N.N.E. a quarter N. To go outside the Londoner, or Thatcher's Island ledge, you must give the Light one league's distance.

Samuel Hewston is Keeper of *Cape Ann* Light Houses.

Capt. Joseph Sayward is Pilot for the Port of *Glocester*.  
 Jona. Millet, and Capt. John Berry, for the Port of *Salem*.  
 Joseph Lunt, and Enoch Lunt, for *Newbury Port*.  
 Capt. Thomas Jones, at *Falmouth, Wood's Hole*.

[*The Act for regulating Pilotage, so far as respects the appointing and regulating of Pilots and Pilot Boats for the Coast of Martha's-Vineyard, being found not to have the good effects intended, is repealed*]

*A Brief Account of General Washington,*  
late Commander in chief of the American Army.

**T**HIS illustrious Commander was born in Westmoreland county in Virginia, on the banks of the river Potowmac, on the 11th of February, old stile, 1732.—He is of English extraction, and descended from one of the most opulent and respectable families that ever emigrated from that country to Virginia. He was naturally inclined, and very early in life applied himself to the military profession; and his gallant conduct in the southern country as commander of a body of Virginians, in the war between France and England, brought him into honorable notice, and placed his character high in military fame.

After the conclusion of the French war in 1763, he devoted himself entirely to a private and philosophic life of which he is passionately fond, and in which it is certain he would have continued, had not the late revolution brought him once more upon the stage of public life. History will enlarge upon his illustrious achievements as head of the American army: He has shown forth the political savior of his country, and the admiration of mankind.

His person exhibits every thing great and noble: He is about six feet high, and extremely well proportioned. He has a majestic carriage; a placid, serene countenance and dark coloured hair;—but,

“Slow-pacing Time begins to shed,  
“It’s silver blossoms o’er his head.”

# The DEFINITIVE TREATY

Between *Great Britain* and the *United States of America*; sign'd at *Paris*, Sept. 3. 1783.

In the Name of the Most Holy and Undivided Trinity.

**I**T having pleased the Divine Providence to dispose the hearts of the Most Serene and Most Potent Prince George the Third, by the Grace of God King of Great Britain, France, and Ireland, Defender of the Faith, Duke of Brunswick and Lunenburgh, Arch-Treasurer and Prince Elector of the Holy Roman Empire, &c. and of the United States of America, to forget all past misunderstandings and differences that have unhappily interrupted the good correspondence and friendship which they mutually wish to restore, and to establish such a beneficial and satisfactory intercourse between the two countries, upon the ground of reciprocal advantages and mutual convenience, as may promote and secure to both perpetual peace and harmony; and having for this desirable end already laid the foundation of peace and reconciliation, by the Provisional Articles signed at Paris on the 30th of November, 1782, by the Commissioners empowered on each part, which Articles were agreed to be inserted in, and to constitute the Treaty of Peace proposed to be concluded between the Crown of Great Britain and the said United States, but which Treaty was not to be concluded until terms of Peace should be agreed upon between Great Britain and France, and his Britannic Majesty should be ready to conclude such Treaty accordingly; and the Treaty between Great Britain and France having since been concluded, his Britannic Majesty and the United States of America, in order to carry into full effect the Provisional Articles above-mentioned, according to the tenor thereof, have constituted and appointed, that is to say, his Britannic Majesty on his part, David Hartley, Esq; Member of the Parliament of Great Britain, and the said United States on their part John Adams, Esq; late a Commissioner of the United States of America at the Court of Versailles, late Delegate in Congress from the State of Massachusetts, and Chief Justice of the said State, and Minister Plenipotentiary of the said United States to their High Mightinesses the States General of the United Netherlands.

Benjamin Franklin, Esq; late Delegate in Congress, from the State of Pennsylvania, President of the Convention of the said State, and Minister Plenipotentiary from the United States of America at the Court of Versailles; and John Jay, Esq; late President of Congress, and Chief Justice of the State of New-York, and Minister Plenipotentiary from the said United States at the Court of Madrid, to be the Plenipotentiaries for the concluding and signing the present Definitive Treaty; who after having reciprocally communicated their respective full powers have agreed upon and confirmed the following Articles.

*Art. I.* His Britannic Majesty acknowledges the said United States, viz. New-Hampshire, Massachusetts-Bay, Rhode Island and Providence Plantations, Connecticut, New-York, New-Jersey, Pennsylvania, Delaware, Maryland, Virginia, North-Carolina, South-Carolina, and Georgia, to be free, sovereign, and independent States, that he treats with them as such, and for himself, his heirs and successors, relinquishes all claims to the government, propriety, and territorial rights of the same, and every part thereof.

*Art. II.* And that all disputes which might arise in future on the subject of the boundaries of the said United States may be prevented, it is hereby agreed and declared that the following are and shall be their boundaries, viz. From the North-west angle of Nova-Scotia, viz. The angle which is formed by a line drawn due north from the source of St. Croix River to the Highlands, along the said Highlands, which divide those rivers that empty themselves into the river St. Lawrence, from those which fall into the Atlantick Ocean, to the North-westernmost head of Connecticut-River; thence down along the middle of that river to the forty-fifth degree of north latitude; from thence by a line due west on said latitude until it strikes the river Iroquois or Cataraquy; thence along the middle of said river into Lake Ontario through the middle of said lake until it strikes the communication by water between that lake and Lake Erie; thence along the middle of said communication into Lake Erie; through the middle of said lake, until it arrives at the water communication between that lake and Lake Huron, thence through the middle of said lake

to the water communication between that lake and lake superior ; thence through Lake Superior northward of the Isles Royal and Philippeaux to the Long Lake ; thence through the middle of said Long Lake and the water communication between it and the Lake of the Woods, to the said Lake of the Woods ; thence through the said lake to the most north-western point thereof, and from thence on a due west course to the River Mississippi ; thence by a line to be drawn along the middle of the said River Mississippi, until it shall intersect the northernmost part of the thirty first degree of north latitude. South, by a line to be drawn due east from the determination of the line last mentioned in the latitude of thirty one degrees north of the equator, to the middle of the River Apalachicola or Catahouche ; thence along the middle thereof to its junction with the Flint-river ; thence straight to the head of St. Mary's River ; and thence down along the middle of St. Mary's River to the Atlantic Ocean. East, by a line to be drawn along the middle of the River St. Croix from its mouth in the Bay of Fundy to its source, and from its source directly north to the aforesaid Highlands which divide the rivers that fall into the Atlantic Ocean from those which fall into the River St. Lawrence, comprehending all Islands within twenty leagues of any part of the shores of the United States, and lying between lines to be drawn due East from the points where the aforesaid boundaries between Nova-Scotia on the one part, and East-Florida on the other, shall respectively touch the Bay of Fundy and the Atlantic Ocean, excepting such Islands as now are or heretofore have been within the limits of the said province of Nova-Scotia.

*Art. III.* It is agreed that the people of the United States shall continue to enjoy unmolested the right to take fish of every kind on the Grand Bank, and on all the other banks of Newfoundland, also in the Gulph of St. Lawrence, and all other places in the sea, where the inhabitants of both countries used at any time heretofore to fish. And also, that the inhabitants of the United States shall have liberty to take fish of every kind on each part of the coast of Newfoundland as British fishermen shall use (but not to dry or cure the same on that land) and also on the coasts, bays and creeks of all his

Britannic Majesty's dominions in America; and that the American fishermen shall have liberty to dry and cure fish in any of the unsettled bays, harbours and creeks of Nova-Scotia, Magdalen-Islands and Labrador, so long as the same shall remain unsettled; but so soon as the same or either of them shall be settled, it shall not be lawful for the said fishermen to dry or cure fish at such settlement, without a previous agreement for that purpose with the inhabitants, proprietors or possessors of the ground.

Art. IV. It is agreed that the creditors on either side shall meet with no lawful impediment to the recovery of the full value, in sterling money, of all *bona fide* debts heretofore contracted.

Art. V. It is agreed that Congress shall earnestly recommend it to the Legislatures of the respective States, to provide for the restitution of all estates, rights and properties, which have been confiscated, belonging to real British subjects; and also of the estates, rights and properties of persons resident in districts in possession of his Majesty's arms, and who have not borne arms against the said United States; and that persons of any other description shall have free liberty to go to any part or parts of the Thirteen United State, and therein to remain twelve months unmolested in their endeavours to obtain the restitution of such of their estates, rights and properties, as may have been confiscated; and that Congress shall also earnestly recommend to the several States a re-consideration and revision of all Acts or Laws respecting the premises, so as to render the said Acts or Laws perfectly consistent, not only with justice and equity, but with that spirit of conciliation, which, on the return of the blessings of peace should universally prevail: And that Congress shall also earnestly recommend to the several States, that the estates, rights and properties of such last mentioned persons shall be restored to them, they refunding to any persons who may now be in possession the *bona fide* price (where any has been given) which such persons may have paid on purchasing any of the said lands, rights or properties since the confiscation.

And it is agreed, that all persons who may have any interest in confiscated lands, either by debts, marriage-settlements, or otherwise, shall meet with no lawful impediments in the prosecution of their just rights.

*Art. VI.* That there shall be no future confiscations made, nor any prosecutions commenced against any person or persons for, or by reason of the part which he or they may have taken in the present war; and that no person shall, on that account, suffer any future loss or damage, either in his person, liberty, or property; and that those who may be in confinement on such charges, at the time of the ratification of the Treaty in America, shall be immediately set at liberty, and the prosecution so commenced be discontinued.

*Art. VII.* There shall be a firm and perpetual peace between his Britannic Majesty and the said States, and between the subjects of the one, and the citizens of the other; wherefore all hostilities both by sea and land shall, from henceforth, cease; all prisoners on both sides shall be set at liberty, and his Britannic Majesty shall, with all convenient speed, and without causing any destruction, or carrying away any Negroes, or other property of the American inhabitants, withdraw all his armies, garrisons and fleets from the said United States, and from every post, place and harbour within the same, leaving in all fortifications the American artillery that may be therein; and shall also order and cause all archives, records, deeds, and papers belonging to any of the said States, or their citizens, which in the course of the war may have fallen into the hands of his officers, to be forthwith restored, and delivered to the proper States and persons to whom they belong.

*Art. VIII.* The navigation of the river Mississippi, from its source to the ocean, shall for ever remain free and open to the subjects of Great Britain, and the citizens of the United States.

*Art. IX.* In case it should so happen that any place or territory belonging to Great Britain, or to the United States, should have been conquered by the arms of either from the other, before the arrival of the said Provisional Articles in America, it is agreed that the same shall be restored without difficulty, and without requiring any compensation.

*Art. X.* The solemn Ratifications of the present Treaty, expedited in good and due form, shall be exchanged between the contracting Parties in the space of six months, or sooner, if possible, to be computed from

the day of the signature of the present Treaty. In witness whereof we the undersigned, their Ministers Plenipotentiary, have in their name, and in virtue of our full powers, signed with our hands the present Definitive Treaty, and caused the Seals of our Arms to be affixed thereto. Done at Paris, September 3d, 1783.

## O B S E R V A T I O N S.

THE *Ohio* is useful, and navigable from Fort Pitt to its mouth, 1.64 miles.

The fishing banks off *Newfoundland*, including the grand bank off the east coast, do not extend beyond the 48th degree of north latitude.

The renunciation of France includes about 70 miles on a north line.

The concession to France includes 190 miles on a south line.

If the Island of *St. Pierre* or *Miquelon* is fortified, it will command not only the navigation of the gulph of *St. Lawrence*, but the fishery on the whole south coast of *Newfoundland*, where the fish appear early in March.

*St. Croix* River is differently laid down in the maps; of three rivers falling into *Passamaquidy* bay, the north east and the north west have been called the true *St. Croix*, the north west by some has been adhered to, but the description in the *Treaty* has left it in uncertainty.

The bay of *Passamaquidy*, into which these rivers empty themselves, is filled with rocks and islands, having only one passage open to navigation at *Passamaquidy* point, in latitude 44. 50. north.

If the Outlet of these rivers at *Passamaquidy* Point into the Bay of Fundy is to be the boundary, an east line extended 20 leagues from *Passamaquidy* Point, lying in 44. 50. will include grand *Manan* Island (having an excellent harbour) run across the bay of Fundy, and cover the entrances into *Annapolis* Bay and *St. Mary's*.

The Province of *Sagadahock* is a new concession, and includes the settlement of *Penobscot*, the ancient boundary, taken possession of in 1779, and fortified the same year by Great Britain at a great expence; but evacuated after the Peace on the 20th of January 1784, having first destroyed what stores, &c. they could not carry off.

The land at the head of *Connecticut* river is also a concession of *Britain* of about 200 square miles; but it includes the most important, because it is a short and easy pass of 72 miles from the settlements on *Connecticut* river to the river *St. Francis*, which is navigable to the center of *Canada* near *Trois Rivières*; and endangers the communication between *Quebec* and *Montreal*.

The Forts of Oswego and Niagara will also intercept the Indian trade from all the vast north west country as they are obliged to keep the south coasts of the Lakes the north being unsafe for their canoes.

Detroit is an extensive Fort and Village, capable to afford protection to the number of Indian tribes and families which resort to it from Ohio, Illinois, Wabash, Mississippi, and the Upper Lakes.

The country south west from West Bay on Lake Superior to the Falls of St. Anthony, is also a new concession as it extends over a tract the European Powers never contended for.

The River Mississippi is known about 60 miles above the Falls of St. Anthony, but is not navigable; its source is supposed by all travellers to be in about 46 degrees north.

On the Reverse, the Sun rising—a city with open gates and vessels entering the port—Fame crowning *Cincinnatus* with a wreath, inscribed *Virtutis Præmium*: Below, Hands joining, supporting a Heart, with the motto, *Eso perpetua*: Round the whole, *Societas Cincinnatorum, instituta A.
